

The image displays two views of the TC2 device. The top view is a large, front-facing image of the device, which is a white, rectangular unit with a circular dial on the left side. The dial has a scale from 0 to 100 and a needle pointing to approximately 40. A label on the right side of the device contains technical specifications. The bottom view is a smaller, side-profile image of the same device, showing its compact size and the connection points on its side.
